

WE'LL BRING YOUR TROLLEY UP TO SCRATCH

When the cold hits, proper care is of the utmost importance so you can start right into the new golfing season.

As part of our TiCad Winter Check, your masterfully-hand crafted titanium trolley will undergo intensive global cleaning and thorough maintenance. This way we can guarantee comfortable handling and ideal functioning come the next season.

TIPS FOR BATTERY STORAGE IN WINTER

The fully charged battery should be stored in a dry and frost-free place. Ideally at temperatures between 10 °C and 20 °C. Please check the charge status of the battery after 2-3 months and recharge if necessary.

SERVICE MOBILITY GUARANTEE

Should your trolley be sidelined midseason we will, upon request, gladly provide a no-cost rental trolley from our TiCad Service Center three days into repair. This service is part of your trolley's Winter Check and you are only eligible for a rental trolley if all additional, recommended repairs unearthed during your Winter Check are being carried out as well.
